

# SLEGG LUMBER

The Government of Canada has renewed the ecoENERGY Retrofit – Homes program from  
**June 6, 2011 to March 31, 2012**

Windows/ doors/ skylights, Insulation, Air sealing, Heating systems, Cooling systems, Ventilation systems, Domestic hot water equipment, Water conservation.

**GET UP TO \$5000**

How the Program Works

To be eligible for upcoming retrofits, new participants and past participants must first obtain a registration number.

Register at <http://oe.nrcan.gc.ca/residential/personal/registration.cfm?attr=4>

Or call toll free: 1 800 O-Canada (1 800 622-6232)

- All participants require a pre-retrofit evaluation (since April 2007) before starting renovations.
- A post-retrofit evaluation and a signed grant application form by March 31, 2012.
- Participants must present all retrofit receipts at the post-retrofit evaluation.
- New participants are only eligible for product purchased after June 6, 2011, and installed after a pre-retrofit evaluation.
- Past participants are only eligible for products purchased and installed after June 6, 2011.
